

**Dementia care:
We want to hear what is
important
to you!**

**800,000 people with dementia in the UK
2/3 of people with dementia live in the community**

**Our study is about
people with dementia who live at home**

We will talk to people with dementia and their carers to find out:

- How services support people with dementia
- How health and social care services affect different aspects of life

Our research explores many different areas of life. We will:

- Develop a list of the MOST important things to people with dementia and their carers
- Advise researchers how these should be measured in future studies

People with dementia are involved throughout our study:

- Helping us to develop study materials
- Designing surveys
- Sharing study results
